

# Project EnergyConnect

December 2023

Elecnor Australia (formerly SecureEnergy) has been contracted by Transgrid to deliver part of EnergyConnect with the construction of 700km of new power lines from the SA border to the regional energy hub of Wagga Wagga. The project will connect the electrical grids of New South Wales, South Australia, and Victoria, improving reliability of our nation's energy supply.

## Work outside approved construction hours

As part of the EnergyConnect project, the approved hours of construction are:

- 7am to 6pm Monday to Friday
- 8am to 1pm Saturdays
- At no time on Sundays and NSW Public Holidays.

**From 4 January 2024 to 30 June 2024**, site compound offices at the Wagga Wagga substation will require the 24-hour operation of an onsite generator, to facilitate work on the project.

During this period, workers will also need to access the substation early in the morning and in the evening for onsite pre-start briefings and end of day procedures, which will mean a small increase in the number of light vehicles in the area outside of approved construction hours.

## Summary of out of hours work activities

Location	Description of activities	When will this take place?	Outside of approved construction hours	Impact
Wagga Wagga Substation	<b>24-hour operation of the onsite 45kVA generator</b>	Daily as required  (Early January 2024 to late June 2024)	24 hours Monday to Sunday Public Holidays	Light Noise
	<b>Light vehicle movements</b>	Daily as required  (Early January 2024 to late June 2024)	From 6am to 7pm Monday to Sunday Public Holidays	Light Noise Traffic

\*Timing and type of work subject to change

## How we're managing impacts

### Noise

The onsite generator will produce some noise, however this should not be noticeable from nearby properties.

### Traffic

There will be an increase of 50 light vehicles to facilitate onsite pre-start briefings and end of day procedures before and after standard construction hours.

## Keeping you informed

Thank you for your patience during our construction activities. For regular project updates please provide your details using the email address below.

We're here to help and answer any questions about our work. You can reach us by phone 1800 49 06 66 or by email at [pec.community@elecnor.es](mailto:pec.community@elecnor.es).
