

EnergyConnect

Tower Removal Information

October 2024

Elecnor Australia (formerly SecureEnergy) has been contracted by Transgrid to deliver part of EnergyConnect with the construction of 700km of new power lines from the SA border to the regional energy hub of Wagga Wagga. The project will connect the electrical grids of New South Wales, South Australia, and Victoria, improving the reliability of our nation's energy supply.

Tower Removal Information

The project team are progressing with the removal of redundant towers on your property. This will include the removal of Asbestos-containing materials (ACMs) which has been identified in the paint on several towers on the line.

The crew will be taking all necessary precautions for the safe removal of the material to ensure the protection of our workers and near neighbours during this activity. This may include the use of protective clothing and equipment. This work is expected to take place from October to 18 November 2024, weather permitting. Our project teams will contact you before commencing the asbestos removal work on your property.

Contact

If you require further information about the asbestos removal program, please contact your Land Access Team.

- Elecnor Australia, Land Access Officer, **Ged Nolan** 0490 424 319
- Elecnor Australia, Land Access Manager, **Graham Meers**: 0428 620 943
