EnergyConnectConstruction Notification

May 2025

Elecnor Australia (formerly SecureEnergy) has been contracted by Transgrid to deliver part of EnergyConnect with the construction of 700km of new power lines from the SA border to the regional energy hub of Wagga Wagga. The project will connect the electrical grids of New South Wales, South Australia, and Victoria, improving reliability of our nation's energy supply.

About the work

Construction work is nearing completion at the Wagga Wagga Substation on Ashfords Road, Gregadoo. From **Saturday 31 May to Friday 6 June 2025** there will be a planned construction outage at the substation.

Scope of construction activities

During the outage period, transmission line stringing activities will be undertaken across Boiling Down Road, near the Intersection of Ashfords Road. The scope of work activities includes the following:

- Erection of transmission line poles between substation and adjacent easement
- Installation of landing spans into substation
- · Stringing of conductor, overhead earth wire and optical ground wire between transmission towers

Work outside of approved construction hours

The approved hours of construction works are:

- 7am to 6pm Monday to Friday
- 8am to 1pm Saturdays
- At no time on Sundays and NSW Public Holidays.

Works outside standard construction hours are planned during the outage to minimise disruption to landholders and the community. These activities will take place, weather permitting. **Monday to Sunday 6.00am to 6.00pm.**

How this could affect you?

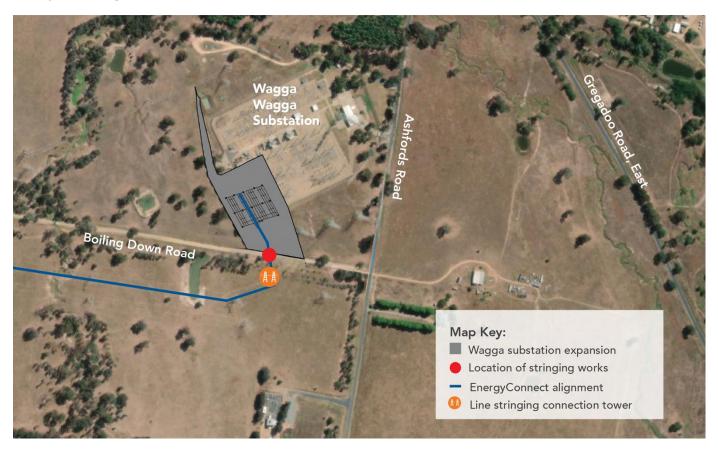

Temporary traffic changes will be in place to ensure the work zone is safe. There will be traffic control in place on Boiling Down Road and access through the eastern end of Boiling Down Rd will be restricted during working hours. Road users should factor this in when planning their journeys and allow for delays.

Types of equipment

The type of plant and equipment you can expect to see as part of the stringing works include steel cables, draw wire, conductor wire, insulators, elevated work platforms, rough terrain cranes, telehandlers, trucks and light vehicles.

All work will be carried out In line with the project's Conditions of Approval and Construction Environmental Plan.

Map showing location of the works

How we are managing impacts

Traffic Management

There will be traffic control in place across Boiling Down Road while works are being carried out to ensure the safety of motorists and construction crews. Please keep to the sign posted speed limits, follow the direction of traffic controllers, and drive to the conditions. There will also be traffic boards located on Redbank Road and at the intersection of Gregadoo and Plumpton Roads to inform road users about the works taking place on Boiling Down Road. There will be no impact to traffic during after hours (before 6.00am and or after 6.00pm).

Machinery, noise and vibration

Machinery and equipment may generate dust, noise and vibration. These Impacts will be managed by:

- Minimising the number of machines/vehicles to be used where possible
- Ensuring all machinery and vehicles are maintained and serviced
- Turning off machinery and vehicles when not in use
- Fitting equipment with devices to minimise noise
- Using water carts, stabilising stockpiles and reducing speed on unsealed roads to suppress dust
- Monitoring dust, noise and vibration to manage any potential impacts and change our work if required.

Contact Us

Please contact us if you have any questions about the stringing works or if you have any questions about the project. We can be contacted via: **Project Community and Stakeholder Engagemnt Team:** 1800 49 06 66 (free call) or email pec.community@elecnor.es

Keep Updated on EnergyConnect

Elecnor Australia is committed to working with landowners and communities through the construction of EnergyConnect.

There are several ways to contact the project team. Contact the Project Community and Stakeholder Engagement Team on:

1800 49 06 66 (free call) or pec.community@elecnor.es secureenergyjv.com.au/projects/energyconnect

Write to us at: Elecnor Australia 1/22 Edward Street, Wagga Wagga NSW 2650
