

EnergyConnect

Transmission line stringing across the Olympic Highway - plan ahead for travel to Henty Machinery Field Days

September 2025

Elecnor Australia has been contracted by Transgrid to deliver part of EnergyConnect with the construction of 700km of new power lines from the SA border to the regional energy hub of Wagga Wagga.

The project will connect the electrical grids of New South Wales, South Australia, and Victoria, improving reliability of our nation's energy supply.

Construction activities

The EnergyConnect project team are continuing to advance construction activities on the transmission line from Wagga Wagga to Dinawan, near Bundure. The project team will be stringing transmission lines across the Olympic Highway in the Wagga City Council Local Government Area, NSW. Stringing will also take place across the ARTC railway line. During this time, six to seven cranes will be operating in the area.

When: Work to prepare for stringing will occur between **Monday 8 September and Wednesday 10 September 2025**. Stringing crews will then be installing draw wire and pulling conductor wire across the Olympic Highway 3km south of Uranquinty between **Saturday 13 September 2025 to Sunday 21 September 2025**. Further works are scheduled to resume between **Monday 29 September 2025 to Wednesday 1 October 2025**, weather permitting.

Where: Olympic Highway, 3km south of Uranquinty

What to expect when travelling on Olympic Highway

- Traffic control will be in place, including single-lane closures and varying speed limits from 100km to 40kms.
- Traffic may be stopped for **up to 15 minutes at a time** during stringing activities.
- Emergency vehicles will be given priority access at all times.
- Standard work hours are 7am–6pm weekdays and 8am–1pm Saturdays. Out-of-hours work may occur Monday to Sunday from 7am–7pm.

Plan ahead for travel to the Henty Machinery Field Days

The project team recognise that works on the Olympic Highway may affect travel to and from the Henty Machinery Field Days and are committed to helping exhibitors plan ahead to minimise disruptions. The map outlines access routes to the event during these works. While the Olympic Highway and Holbrook Road remain open, alternate access via Henty-Cookardinia Road may assist with travel planning. No formal detours will be in place during this period.

Keep Updated on EnergyConnect

Elecnor Australia is committed to working with landowners and communities through the construction of EnergyConnect.

There are several ways to contact the project team.

- Phone us on 1800 49 06 66 (free call) or pec.community@elecnor.es

- Visit our website at www.secureenergyjv.com.au/projects/energyconnect

- Write to us at: Elecnor Australia, Lockhart Camp, corner of Lockhart Road and County Boundary Road, Lockhart, NSW 2656.

- To provide any feedback on the way we engage please tell us at www.secureenergyjv.com.au/tell-us-what-you-think/
